

SACRED GROUND RESEARCH

DIFFERENTIATORS

- ★ Dual expertise in pharmacotherapy and clinical mental health counseling
- ★ Minority-owned, community-rooted research firm committed to inclusive science
- ★ Proven success engaging historically underrepresented populations in research
- ★ Deep understanding of both regulatory standards and culturally grounded care
- ★ Flexible infrastructure tailored for government, academic, and industry partners

PAST PERFORMANCE

CORE COMPETENCIES/CAPABILITIES

Sacred Ground Research (SGR) specializes in high-quality, community-centered behavioral health and clinical research services. Our core capabilities include:

- Clinical trial coordination & site management
- Culturally responsive behavioral health assessments and interventions
- Community-based participatory research (CBPR)
- Regulatory compliance and quality assurance in clinical settings
- Health equity-focused program evaluation and outcomes research
- Participant recruitment and retention strategies for underserved populations
